2025 HIGHLIGHTS

We're grateful for the incredible community that supports Safe Harbor Free Clinic. To our dedicated donors, tireless volunteers, corporate sponsors, and generous grantors: You're the lifeline that allows us to serve patients through free healthcare. Because of your unwavering support this past year, we've continued to provide vital services across our various clinics. Your partnership turned the challenges of 2025 into a year of healing and hope, ensuring that quality healthcare remains accessible to everyone who walks through our doors.

Sandy Solis, Executive Director

Our Stanwood-Camano Parade float engaged with the community in August.

Medical Director Keith Erickson serves at both clinic locations.

We appreciate the support of these foundations in 2025

The Olson Foundation
RE/Max Community Chest Grant
Skagit Community Foundation
Floyd & Delores Jones Endowed Fund Grant
Tulalip Tribes
Stillaguamish Tribes
Muckleshoot Tribe

Therapeutic medical massage now helps with specific conditions.

IMPACTING LIVES ONE PATIENT AT A TIME

*Multiple individuals benefited from the services of **a volunteer counselor** in 2025. One woman in poor physical health due to family dysfunction met with the counselor weekly. She learned to confront people and situations that caused her suffering and how to manage anxiety and interpersonal stress. By the year's end, she announced to the counselor, "**I'm doing super good!**" with mended relationships and improved physical wellness.*

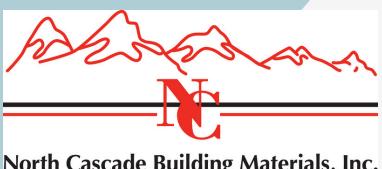

*Steve came to SHFC with very high blood pressure. Providers noticed that **his high stress level** related to his work and a relationship breakup. Steve agreed to meet with Leigh, a spiritual care volunteer, and revealed **he was drinking heavily to manage his emotions**. Through treatment to control his BP, Steve and Leigh met repeatedly. Steve agreed to enter an alcohol addiction program, completed treatment, and **more than a year later, he's sober**. He and Leigh have occasional check-in's, where it's evident Steve has gained a new lease on life.*

*This summer, 20 women without health insurance received **free mammograms** at a mobile mammogram event we hosted. For some of these women, it was their first mammogram; several women needed follow-up imaging, which our staff arranged.*
